

2009 Washington State Biomedical Device Summit
Tuesday, June 23, 2009 ~ 3:30 p.m. - 6:30 p.m.
University of Washington Bothell

The second annual Washington State Biomedical Device Summit will bring together leading executives, entrepreneurs, researchers, government officials, economic development professionals and thought leaders in the medical device industry to review the current landscape along with strategies for navigating these challenging times.

The current economy, combined with a new administration and focus on health care reform, creates both challenges and opportunities for medical device companies. This year's Summit will feature the presentation of key findings from the Washington State Biomedical Device Innovation Zone 2009 Industry Outlook Survey including how companies are adjusting their strategies during this economic down period.

Invited participants include representatives from:

- Cardiac Science Corp.
- *MD&DI Magazine*
- Pathway Medical Technologies
- Philips Healthcare
- SonoSite, Inc.
- Washington Biotechnology & Biomedical Association

Highlights of the Summit include:

- Presentation of this year's Industry Outlook Survey findings
- Interactive discussion by key executives from the region's Biomedical Device industry
- Showcase of the Biomedical Device products developed in Washington State
- Networking reception with representatives from the Biomedical Device Industry
